## ABOUT US

CSL Technology Solutions is a full-service Energy Solutions Company (ESCO). CSL partners with clients to reduce their energy costs and meet their environmental and sustainability metrics. We specialize in commercial and industrial lighting, electrical, and control system projects that improve energy efficiency. CSL handles every aspect of the project from inception through installation and on-going maintenance and optimization.

## CORE COMPETENCIES

- Comprehensive **energy audits** and **utility bill analysis**
- **Utility rebate** research and **tax incentive** management for energy reduction projects
- Full-service **commercial and industrial lighting, electrical and automation system** design, install and commissioning capability
- **Electric vehicle (EV) charging** system design, installation, and commissioning
- Providing on-going **periodic maintenance** services and **energy management**
- Fully stocked warehouse for quick shipment of lighting

## PAST PERFORMANCES

- Columbus City School LED Lighting Upgrade – 28 schools
- Dayton Public Schools – 3 high schools
- Miami East High School – Multi-year project

## DIFFERENTIATORS

- 46-year-old company with extensive experience in lighting and energy management
- AEE Certified Energy Managers on staff to review and approve all energy conservation solutions
- Demonstrated history of on-time, on-budget delivery of energy cost savings
- National service coverage
- Complete fleet of service vehicles including bucket trucks
